Fast Starter

Taking you from zero to hero

Welcome

Over the years, REAL+ has become pretty good at being the chameleon in the room. Not simply a reflection of our environment, but more taking the time to identify the current problems faced by our consumers – the industry – and morphing our business to create powerful solutions.

After speaking with so many of our clients, we found that finding great Property Managers to work in your business was one of your biggest challenges, and we were listening.

Hiring a new staff member for your office is costly and time consuming, not to mention the added stress for your team who generally pick up the slack while the newbie gets their skates on!

On average, research has shown it can take 5-6 months for a new team member to be operational and often up to 2 years for them to become as efficient as the previous team member.

With our **FAST STARTER** program, we aim to accelerate this process by providing an intensive 12-week dive into the world of Property Management, the why's, how's, when's and where's all delivered with our usual enthusiasm and flare.

We look forward to making your business life easier

Guided – An overview

Let's be frank, our Guided Fast Starter pack is the *creme de la creme*. Your new starter will receive regular coaching calls and be provided access to our coaches and trainers 5 days a week. It is like having a Senior PM in your office, doing nothing but training.

Portfolio's need not suffer and, in contrast to the "learn-on-the-job" model, Property Managers will feel empowered to not only *manage* the workload, they should thrive.

Understanding reporting, investing, ledgers and conflict resolution all in 12 weeks.

Why choose our Guided Fast Starter course?

- *No dedicated team member to train*
- *Your new starter has under 2 years' experience in the industry*
- *The portfolio does not already have a Senior Property Manager overseeing tasks*
- *No dedicated Head of Department to guide and mentor or,*
- *Your new starter has not managed a full portfolio on their own*

If any or all, of the above apply, or if you just really want to empower your new starter, the Guided Fast Starter course is for you.

The following Program Outline describes *what you'll get* with our Guided course.

Planning, planning, planning. We conducted our tenancy reviews last month, but how are they tracking? Did we complete them all and what do we have on our list for the month ahead? This week we explore the strategy and efficiencies around tenancy review planning.

- + Action plan: tenancy reviews. New starter to prepare report of all rent and lease reviews conducted last month and, prepare a list of all reviews due for the month ahead

- + Practical coaching session

Week 12

You did it! The program is coming to an end, and we've covered a big portion of the PM role. As always though, trouble can and does arise. In our final week, we will look back on conversations, conflicts and negotiations, and work on future dialogue and strategies to better handle these in future

Testimonials

A few kinds words courtesy of our Google Reviews:

I not only thoroughly enjoy my training with Joshua but I also take away a motivating and different perspective from each session. He has a skillset of experience, knowledge and an engaging demeanor. This has equated into a very meaningful impact on both my PM Role and Office Manager position alike. I wasn't going to share my 5 star thoughts so others knew of my advantages but some things are just too good to keep to yourself.

- RES by Mirvac

Samantha from Real+ has been excellent at helping me get the most out of my work week, as well as giving me the right strategies to achieve both short and long term career goals. I get a lot out of our weekly coaching sessions and I would highly recommend her to anyone.

Working with the team at Real+ for over 5 years has been both rewarding and satisfying. Our team has been able to engage with their platform on a number of levels providing training to the extent of the utmost professional.

Additional add on services have also been a huge benefit to our organisation at times 1300HELPUS & recruitment.

The mentoring and business coaching that I have been able to experience has transformed our business into what it is today - customer focused, thinking outside of the square and continually challenging ourselves to always be the best we can in an industry that has competition of low fees and inadequate service to property owners out there.

Thank you to the whole team - you are all part of our family.
